iVova IPIC

Substantive, Influential Person, Education, Product /pronunc n/a/

Public Note

OurRef: IPIC-0122-0911

For educational purposes and to preserve the history of the Bakongo, iVova Edu created an IPIC, **Community Influential People Index**, which is an integral part of its Digital Dictionary, using AI technology.

With this initiative, we want to highlight the achievements and contributions of the Bakongo throughout their life path, in the communities and countries where they live or have lived. It is not just the works of our late fathers, mothers, brothers and sisters, but of all those who distinguished themselves and dignified the Bakongo in all areas of activity (in studies, work, politics, sports, music, religion or science and technology), nationally or internationally.

With the history of our ancestors as well as those we miss, we will build a better future for the new generation.

In these terms, we ask anyone with such information or would like to proposes names to send their proposals to iVova SAD for consent formalities where necessary or contact our services for more information.

PS. Since the subject is of public interest, you can share this note with friends and family. For other languages, please scan the QR Code. With best wishes for a bright and prosperous New Year 2023.
